- Compress to "MotionProSetup.rar" and email
- Pin to taskbar
- Restore previous versions

5. A) If you were logged in using G Suite credentials. Refresh the welcome page and just click on 'connect'

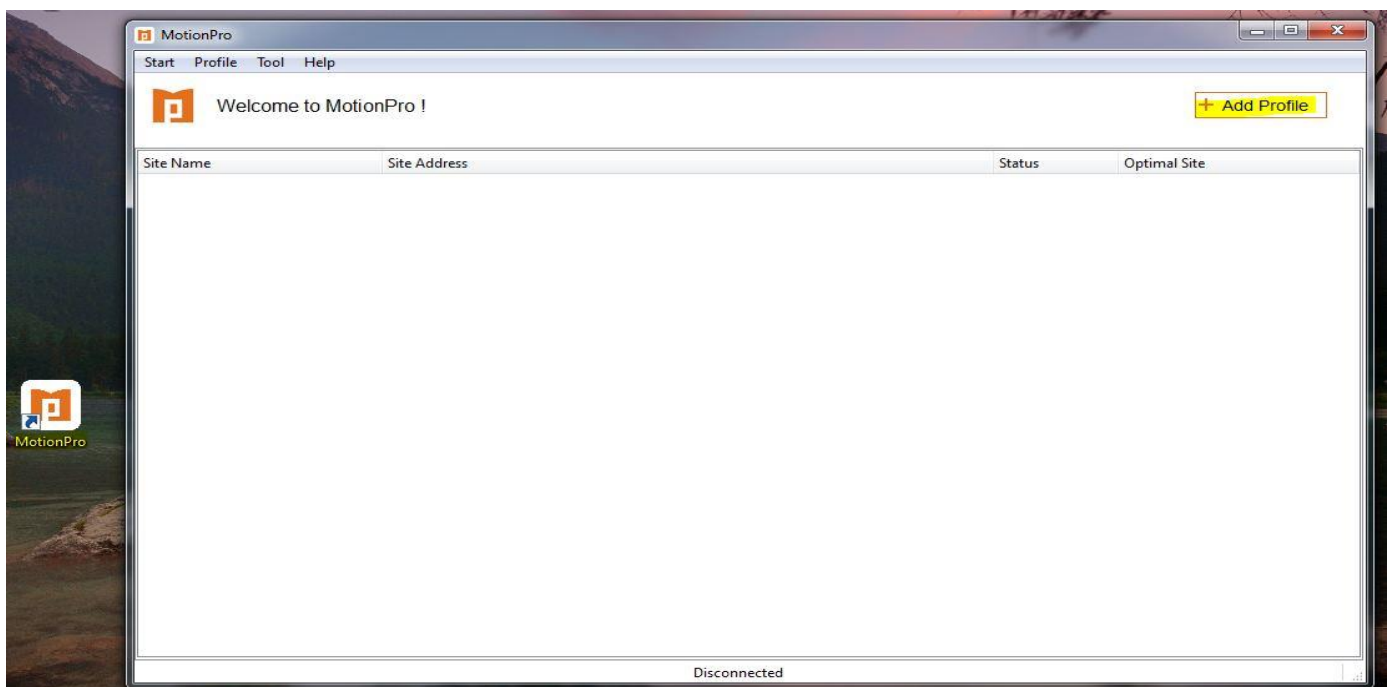

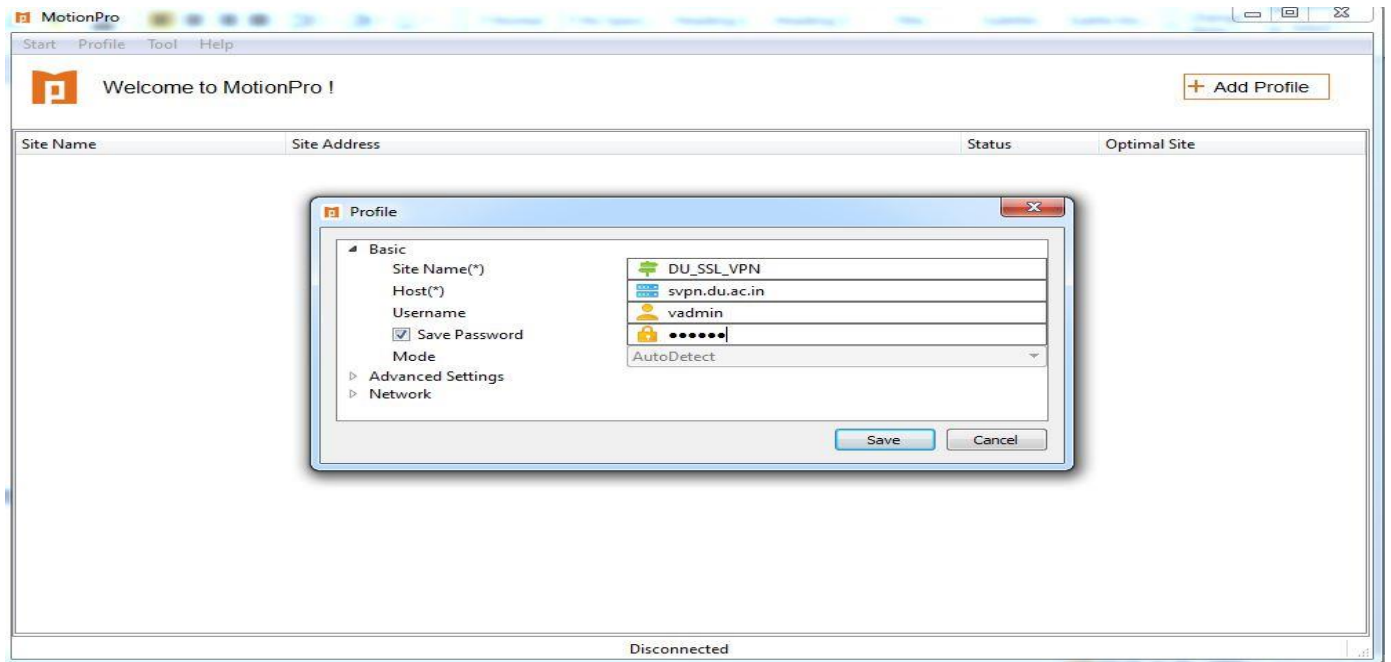

The screenshot shows a web browser window with the address bar displaying `svpn.du.ac.in/prx/000/http/localhost/welcome/index.html#`. The page header includes the University of Delhi logo and name in Hindi and English, along with a 'Logout' link. The main content area displays a welcome message: 'Welcome to the Delhi University SSL VPN Gateway!!' followed by 'Hello svpnadmin'. Below this, there are two sections: 'User Resource' and 'VPN Network'. The 'User Resource' section lists 'Windows_client_64-bit' and 'MAC_Client'. The 'VPN Network' section features an orange 'Connect' button and the text 'VPN is connecting'.

--You are connected. You will see icon 'A' in task bar red in colour. To double check it, right click on icon 'A' and click on display window.

B) If you were logged in using your LDAP credential. Open the installed client and click on 'Add Profile' and fill up the required details

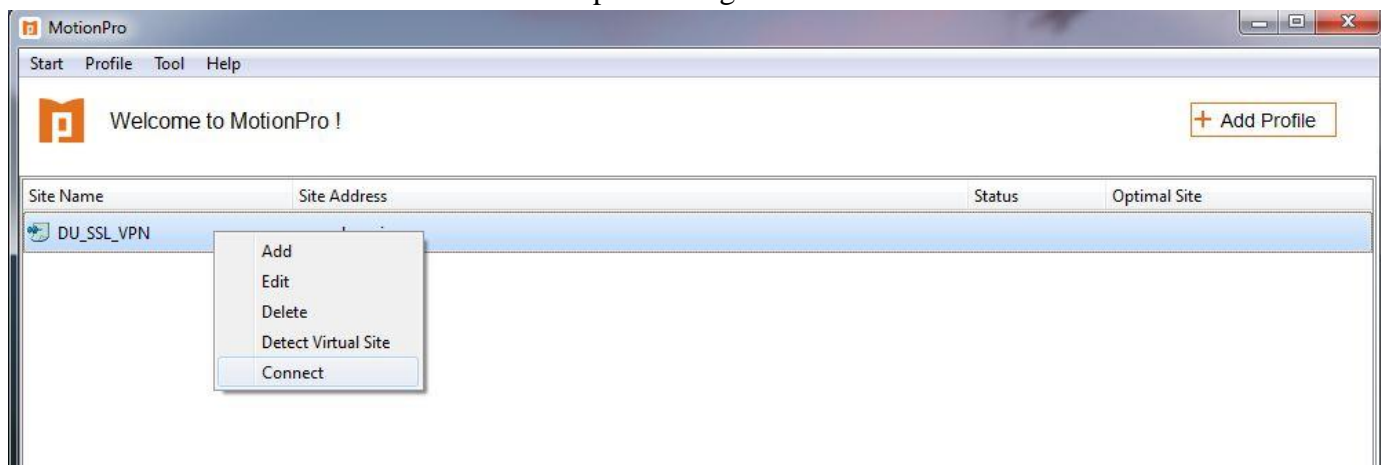

Host- *svpn.du.ac.in*

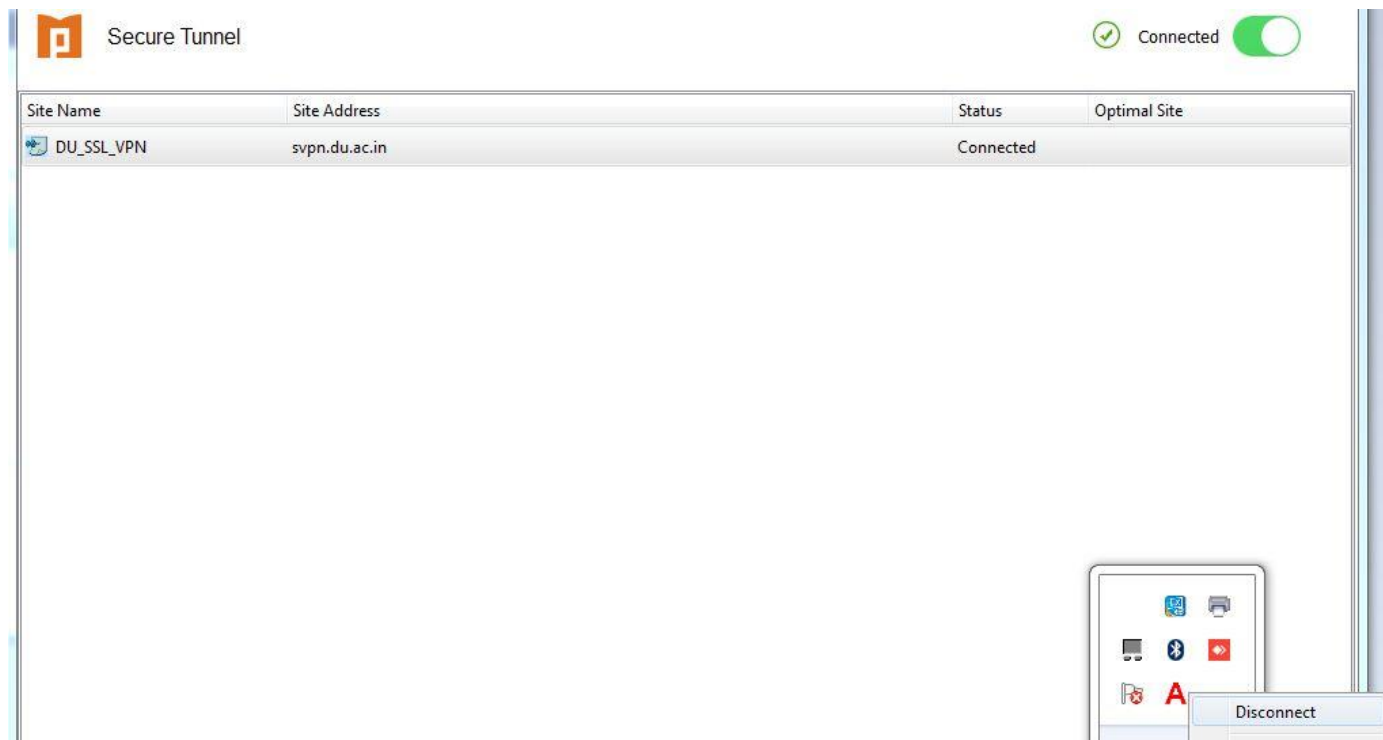

Username- *LDAP username*

Password- *LDAP Password*

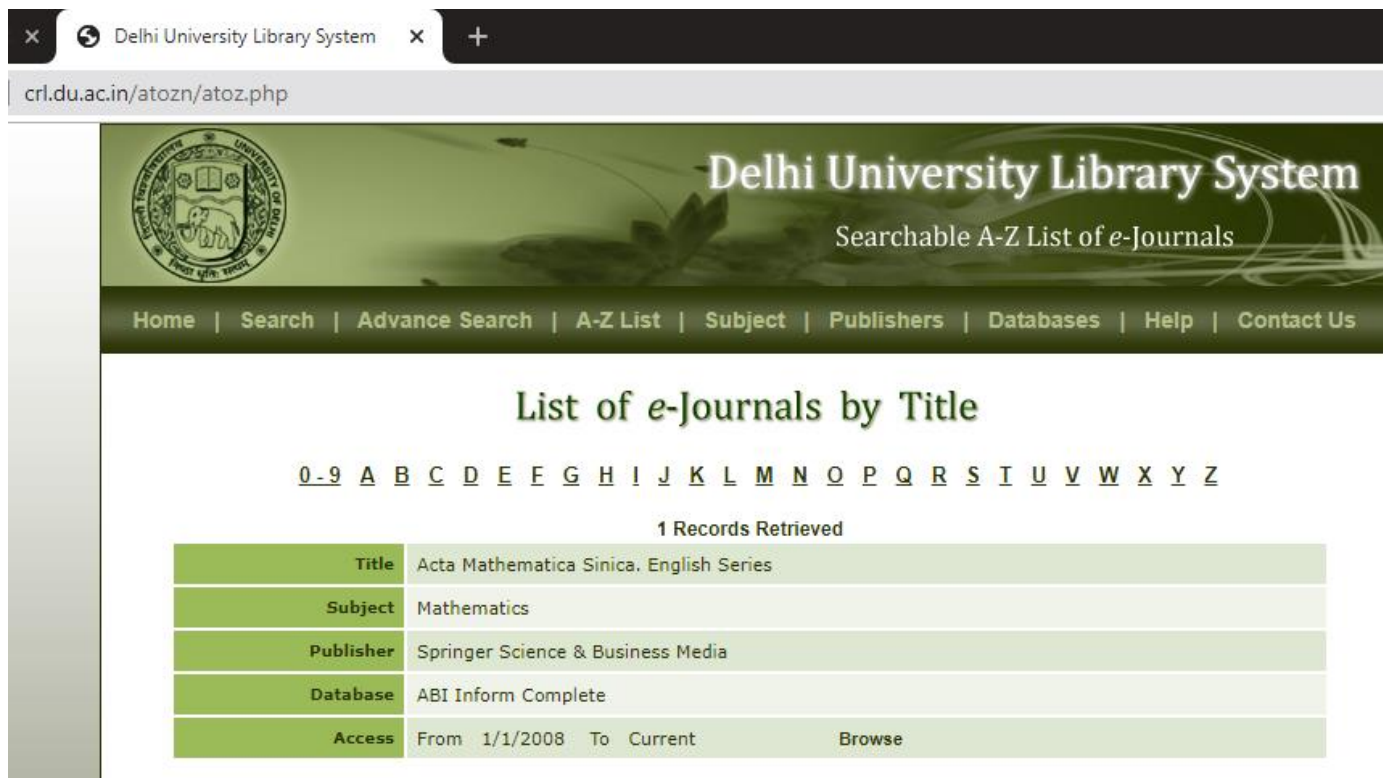

b) Clicks on connect or double click the created profile to get connected.

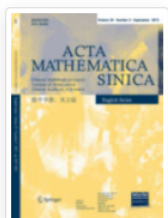

--**You are connected.** You will see icon '**A**' in task bar red in colour

6. Proceed to access the resources you are permitted for.

VPN Network

Connect **Disconnect**

If VPN cannot be started, please install MotionPro.

E) **You are connected.** You can confirm the status for the same from motionPro App.

F) Process to access the resources you are permitted for.

3. But if you want to login via your LDAP credentials.

A) Open Motion Pro app and Click on '+' to add the gateway. Enter the details and click on Save

The screenshot shows the 'Gateway' configuration screen in the Motion Pro app. The status bar at the top indicates the time is 10:04, the signal is 4G, and the battery is at 62%. The screen has an orange header with 'Cancel', 'Gateway', and 'Save' buttons. The configuration fields are as follows:

Field	Value
Title	DU_SSL_VPN
Gateway	svpn.du.ac.in
Username	vadmin
Port	443
Certificate	>

Below the fields are five toggle switches:

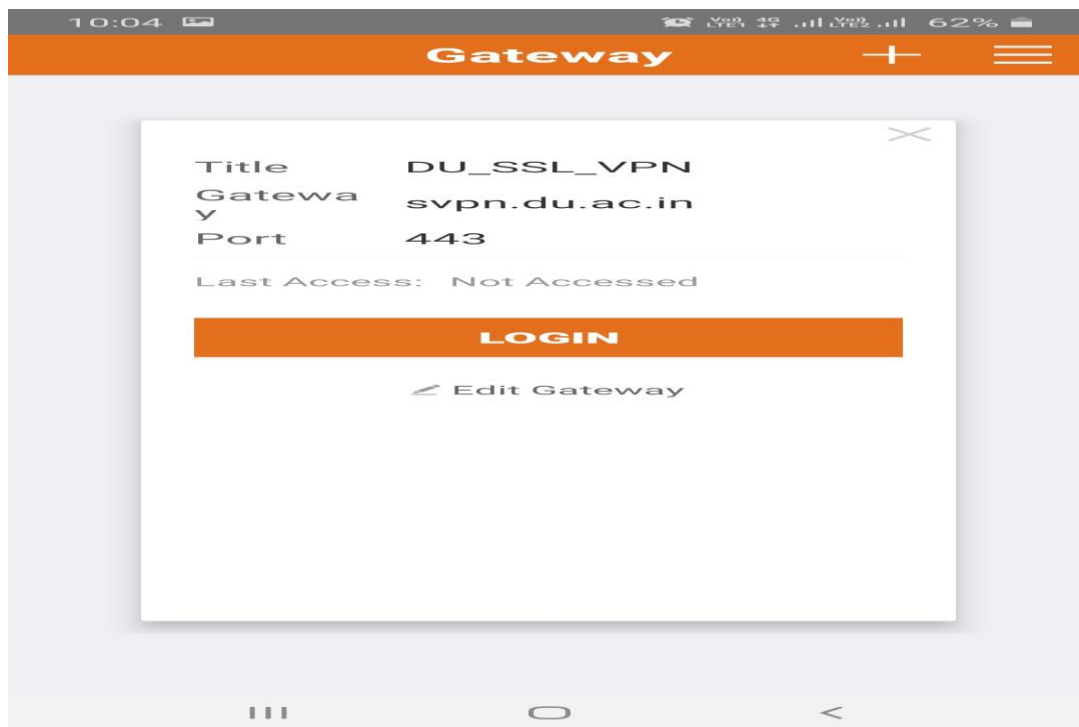

- Auto Start VPN: ☒
- Save Password: ☒
- Show Login Window: ☒
- Enable Web SSO: ☒
- SyferLock Authentication: ☐

The bottom of the screen shows a light gray area with three icons: a hamburger menu, a circle, and a back arrow.

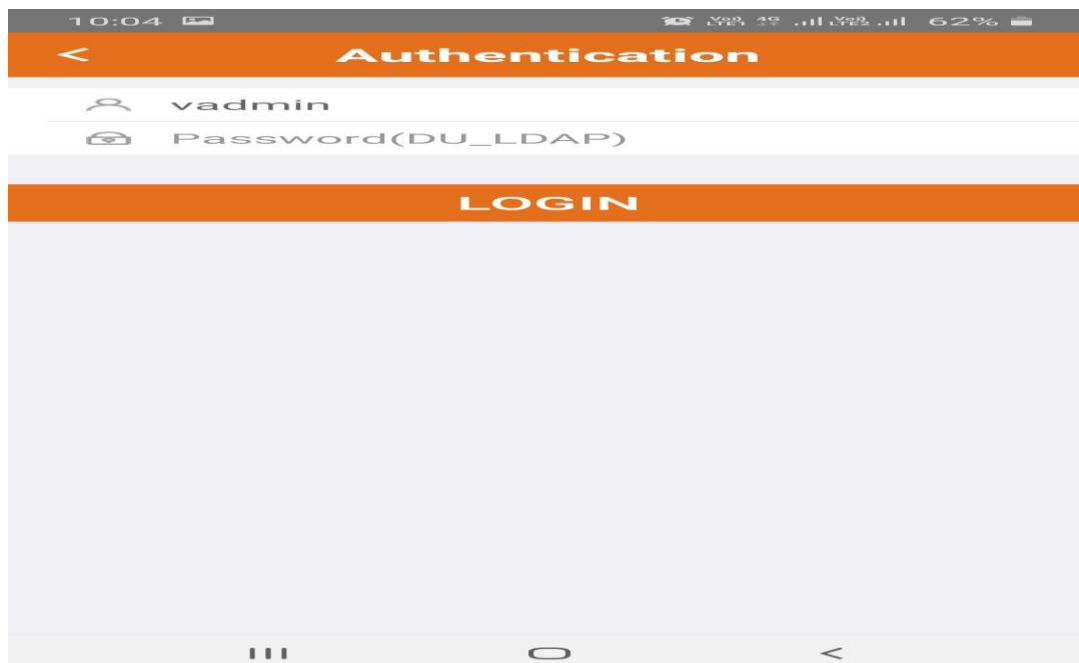

--Gateway- svpn.du.ac.in

--Username- LDAP username

B) Click on 'Login' button on added gateway.

C) Enter LDAP password and you are connected

D) Proceed to access the resources.
